BRITISH CORROSION JOURNAL

1998 Volume 33

Managing Editor

Mark Hull

Consulting Editor

Paul McIntyre

Published by:
The Institute of Materials, 1 Carlton House Terrace, London SW1Y 5DB

Material factors influencing notch tip strain rate
J. Toribio 23
Electrochemical noise for evaluating susceptibility of lead–acid battery electrodes to intergranular corrosion
E. M. Lehockey, A. M. Brennenstuhl, G. Palumbo, and P. Lin 29
Electrochemical corrosion characterisation of intermetallic phases occurring in Nd–Fe–B type magnets
H. Bala, G. Pawlowska, S. Szymura, and Yu. M. Rabinovich 37
Pitting corrosion behaviour of AISI 316L steel in chloride containing solutions
E. A. Abd El Meguid, N. A. Mahmoud, and V. K. Gouda 42
Hydrogen embrittlement of 22–5 duplex stainless steel
F. Elshawesh and J. C. Scully 49
Classification of atmospheric corrosivity in humid tropical climates
L. Veleva and L. Maldonado 53
Characterisation of corrosivity in indoor atmospheres with different metals and evaluation techniques
E. Johansson, C. Leygraf, and B. Rendahl 59
Effects of concentration and temperature on corrosion resistance of nickel base alloys in acidic environments
I. B. Singh 67
Inhibition of acid corrosion of nickel by acetylenic alcohols
A. Frignani, C. Monticelli, and G. Trabanelli 71
Study of corrosion product of zinc in natural sea water
R. Venkatesan 77
Sulphide corrosion of alloy steels in chloride solutions: potentiokinetic investigations
A. J. Szyprowski 103
Comparative study of stainless steel and related alloy corrosion in natural sea water
A. Neville and T. Hodgkiess 111
Physical factors influencing bacterial fouling of type 304 and 316 stainless steels
S. L. Percival, J. S. Knapp, D. S. Wales, and R. Edyvean 121
Review of potable water biofilms in engineered systems
S. L. Percival 130
Corrosion inhibition of mild steel by sodium tungstate in neutral solution. Part 1: Behaviour in distilled water
J. M. Abd El Kader, A. A. El Warraky, and A. M. Abd El Aziz 139
Corrosion inhibition of mild steel by sodium tungstate in neutral solution. Part 2: Behaviour in NaCl and H_2SO_4
J. M. Abd El Kader, A. A. El Warraky, and A. M. Abd El Aziz 145
Corrosion inhibition of mild steel by sodium tungstate in neutral solution. Part 3: Coinhibitors and synergism
J. M. Abd El Kadar, A. A. El Warraky, and A. M. Abd El Aziz 152
Technical note **Novel configurations for electrochemical noise measurements**
S. J. Mabbutt and D. J. Mills 158
Case study **Railway signal wire insulation investigations and monitoring of degradation undertaken by London Underground**
J. P. Carter 184
Thermometric, gravimetric, and potentiometric study of corrosion of iron under conditions of reactions $Fe+2Fe^{3+}=3Fe^{2+}$
A. M. Shams El Din and R. A. Arain 189
Alternate layers of zinc and nickel electrodeposited to protect steel
M. R. Kalantary, G. D. Wilcox, and D. R. Gabe 197
Improved sour gas resistance of X-80 steel after quenching and tempering
J. L. Albarran, L. Martinez, and H. F. López 202
Current densities for cathodic protection of steel in tropical sea water
K. H. Hoe and S. K. Roy 206
Benzotriazole as corrosion inhibitor for type 304 stainless steel in water–ethanol media containing 2M H_2SO_4
P. R. P. Rodrigues, A. H. P. de Andrade, and S. M. L. Agostinho 211
Influence of substituent groups on performance of *N*-benzylidine phenylamine-*N*-oxide as corrosion inhibitor of mild steel in acidic solutions
R. Hariharaputhran, S. Subramanian, A. A. Antony, P. M. Sankar, A. Gopalan, T. Vasudevan, and S. Venkatakrishna Iyer 214
Pitting corrosion on aluminium in absence of chloride
D. J. Blackwood and A. S. L. Chong 219
Influence of chloride on deposition of copper on 6063 aluminium alloy
D. J. Blackwood and A. S. L. Chong 225
Effect of velocity and elevated temperature on pitting of Al 6013–20SiC_p composite in 3·5 wt-%NaCl
Z. Ahmad and B. J. Abdul Aleem 230
Technical note **Biological corrosion of metallic parts in underground irrigation system: study of alternative materials**
D. K. Yfantis, A. D. Yfantis, and I. Anastassopoulou 237
Martí i Franqués Medal address **Development of EFC through international cooperation, transfer of knowledge, and education**
A. D. Mercer 278
Effect of prior conversion treatment on high temperature oxidation behaviour of ceramic coated 17Cr ferritic stainless steel
L. Ariès, A. Laaouini, J. Roy, and P. Kressmann 281
Effect of σ phase on pitting corrosion of 22–5 duplex stainless steel
F. Elshawesh, N. Elahresh, and A. Elhoud 285
Electrochemical studies of hot corrosion of type 347H stainless steel
F. Almeraya-Calderon, A. Martinez-Villafañe, and J. G. Gonzalez-Rodriguez. 288
Relationship between susceptibility to embrittlement and hydrogen permeation current for UNS G10190 steel in 5%NaCl solution containing H_2S
Xueyuan Zhang and Yuanlong Du 292
Synergistic influence of iodide ions on inhibition of corrosion of mild steel in H_2SO_4 by *N*-phenyl thiourea
S. Syed Azim, S. Muralidharan, S. Venkatakrishna-Iyer, B. Muralidharan, and T. Vasudevan 297
Effect of molybdate ions as corrosion inhibitors of iron in neutral aqueous solutions
M. Meziane, F. Kermiche, and C. Fiaud 302

Time dependence of inhibiting effect of amidoamines in CO_2 saturated chloride solutions
I. Esih, T. Sorić, and Z. Pavlinić 309
Technical note **Calcium gluconate as corrosion inhibitor for mild steel in low chloride media**
S. Rajendran, B. V. Apparao, and N. Palaniswamy 315
Technical note **Effect of ceramic heat insulating paste on degree of sensitisation of AISI type 304 stainless steel**
J. H. Qiu 318
